MULTILATERAL SCIENTIFIC AND TECHNOLOGICAL COOPERATION IN THE DANUBE REGION

CALL FOR APPLICATIONS FOR 2027-2028 JOINT PROJECTS

CLOSING DATE: 30 JUNE 2026

Aims of the Call

- To contribute to scientific advancement in the abovementioned countries by funding researchers' mobility in the frame of joint research projects;
- To contribute to research capacity development in the region;
- To support the advancement of cross-border research cooperation;
- To provide an opportunity for young/female researchers (as applicable) in the abovementioned countries to cooperate in an international setting and to develop their scientific careers;
- To facilitate the joint participation in European research projects.

Areas of Cooperation

The Call is open to all scientific disciplines and thematic areas, including social sciences as well as humanities.

Duration of projects

The projects will be supported for a period of max. 2 years from **1 January 2027** until **31 December 2028**.

Target group

AUSTRIA:

- **Researchers** at higher education institution (minimum requirement PhD degree) and researchers at non-university research institutions in areas of basic research (minimum requirement Master degree)
- **PhD/Doctoral students** as team members only (Bachelor and Master graduates are not eligible for funding)

BULGARIA:

Detailed eligibility conditions are available at the web site of BNSF: www.bnsf.bg

CROATIA:

Higher education faculty (at least assistant professors) holding permanent positions at Croatian higher education institutions, and researchers (at least research assistants) holding permanent positions at Croatian scientific research institutes are eligible for application.

PhD/doctoral students are eligible for funding as team members only (Bachelor and Master graduates are not eligible for funding).

An acceptable applicant on the Croatian side needs to have an active project (as Principal Investigator or team member with a written consent of the Principal Investigator) financed by the central national body for the funding of scientific projects or an active project financed from the European Structural and Investment Funds, from Programmes of the European Union or by the home institution.

CZECH REPUBLIC:

Researchers working at research organization in accordance with Art. 1.3 point. ff) Framework for State aid for research and development and innovation (2022/C 414/01). Minimum requirement for project members is a Master degree or equivalent.

FRANCE:

The call for proposals is open to public or private research laboratories affiliated with higher education institutions, research organizations, or companies.

Companies may participate in the project, provided they are partnered with an academic institution. Projects that are currently receiving funding under a bilateral PHC program (Amadeus, Rila, Cogito, Barrande, Pavle Savić, Proteus or Stefanik) are not eligible for simultaneous second funding under the PHC Danube. However, successive participation—first in one of these bilateral PHC programs and then in the PHC Danube—is strongly encouraged.

More information is available on the website of Campus France: <https://www.campusfrance.org/fr/danube>

MONTENEGRO:

Public or private research organizations from Montenegro, licensed to conduct scientific-research activities in accordance with the Law on Scientific-Research Activities ("Official Gazette of Montenegro", no. 51/2025) are eligible to apply.

Montenegrin project leader is required to hold a PhD/doctoral degree. One individual may serve as project leader on only one project, and may additionally participate as a team member on one other project, with a maximum involvement in two projects overall.

REPUBLIC OF SERBIA:

- In this Call only one Serbian accredited scientific research organization can participate. List of accredited scientific research organisation: <https://enauka.gov.rs/?locale=en>
- **Researchers** from Serbia who apply for the project should be persons in teaching, scientific and research positions who are employed in institutions of higher education or scientific research organisations in accordance with the Law on Science and Research ("Official Gazette of RS", No. 49/19) and participate in the implementation of the Institutional Financing Program.
- **"Young research talent"** within the project team, means a person who meets the following conditions: has been selected for a research title in accordance with the Art.74. Law on Science and Research, has obtained a maximum of 10 years of research work before the closing date of the Call and is employed in an accredited scientific research organisation.

SLOVAK REPUBLIC:

Any Slovak legal entity or Slovak natural person - an entrepreneur who holds valid certificate of competence to carry out research and development under § 26a sect. 11 or 12 of Act No. 172/2005 Coll. as amended.

REPUBLIC OF SLOVENIA:

Entities eligible to apply for the public call for proposals are research organizations listed in the register of scientific research entities in the Republic of Slovenia and private researchers entered in the agency's register of private researchers who meet the conditions set forth in the ZZrID and the agency's general acts.

Proposals for multilateral cooperation activities must meet the eligibility requirements in all countries. The eligibility requirements for applications received are checked by all participating countries, each for its own side

Eligibility requirements:

- (1) Applicants to the public call must be eligible applicants (in accordance with the previous section).
- (2) The applicant must be implementing a research program or a basic or applied project (co-)funded by the Slovenian Research and Innovation Agency (hereinafter: the Agency), or have an approved international project (e.g., participation in EU framework programs in the field of research and innovation) that provides the primary source of research funding.
- (3) A researcher who, within the framework of the applicant, applies to the public call as the head of a multilateral cooperation activity on a Slovenian side (hereinafter: activity leader), may submit only one proposal for the (co-)funding of a multilateral cooperation activity.
- (4) The activity leader may only be a natural person who is registered as a researcher in the RO Register and meets the conditions set forth in the ZZrID and the General Act on (Co-)Funding Procedures.
- (5) Researchers from a minimum of three participating countries must participate in the submitted multilateral cooperation activity.
- (6) The participating researchers and technical staff in the Republic of Slovenia must include at least one doctoral student or researcher who has defended their first doctoral dissertation no more than five years ago (the year of the doctoral dissertation defence is taken into account; effective from 2022 onwards).
- (7) Slovenian applicants and applicants from at least two participating countries must submit applications in their respective countries, as a rule, at the same time and in the manner determined by the competent institutions in all countries.
- (8) Applicants in which an entity engaged in economic activity, regardless of its legal status or legal form, acts as the contractor in the application must, in accordance with Commission Regulation (EU) 2023/2831 of December 13, 2023, on the application of Articles 107 and 108 of the Treaty on the Functioning of the European Union to de minimis aid (OJ L No. 2023/2831 of December 15, 2023) and the Rules on State Aid in the Field of Scientific Research No. 007-2/2024-1 of March 7, 2024, they must also submit the completed Form for the Granting of State Aid under "de minimis" Aid ARIS-DM-2026. Above mentioned requirements need to be met on the closing date of the call.

In the event of failure to meet the eligibility requirements and additional requirements, the agency will reject the application.

The Agency will also reject the application in case of non-fulfilment of the requirements in the participating country.

Additional Requirements:

All participating researchers must be registered in the RO Registry or the Registry of Private Researchers with the starting date of financing.

Application process and content

It is up to the applicants to find suitable partners in participating partner countries. Proposals **must be submitted to all responsible national funding bodies of the participating partners simultaneously**. Proposals which have not been received by all participating partners will not be considered for funding. The call process is highly competitive therefore application does not guarantee funding.

AUSTRIA: Electronic application only [web link](#)

Content:

- Brief academic CV of Principal Investigator incl. academic status (early-stage researchers) and language skills
- Abstract
- List of relevant publications of the last 2 years on the Austrian side
- Project description including methodology (3 to 5 A4 pages)
- Brief description of the partner institutions (incl. reason of choice of cooperation partner)
- Brief description of the project tasks of ALL project members (Austrian and partner incl. their academic status PhD/doctoral students/researcher and their competence in Austria) and project timeline (Template)
- Further cooperation perspective
- Brief description: monitoring, exit strategy, added value for home institution and Austria
- Detailed budget plan (Template)

BULGARIA:

Proposals must be submitted online to the Information system for management and monitoring of EU funds in Bulgaria 2020 at the following address: <https://eumis2020.government.bg>

CROATIA:

The call for applications in Croatian language including application forms is available at:

[Ministarstvo znanosti, obrazovanja i mladih - Natječaj](#)

The application for the research project must be signed and submitted in PDF version by e-mail to: pisarnica@mzom.hr and to the contact person listed below (marija.crnica@mzom.hr).

The application must include the following documents in English language:

- Project description including the objectives and methodological part (3 to 5 A4 pages)
- Brief academic CV for each Croatian project member
- List of relevant publications of the last 2 years
- Brief description of the partner institutions
- Short description of the project tasks of **ALL** project members
- Expected project results and further cooperation perspective
- Proof of active project; written consent of PI
- **CZECH REPUBLIC:**

The application for the research project in English (unless otherwise specified) shall be preferably submitted via data box (MEYS data box: **vidaawt**). There must be a notice: „VYZVA 8X27 - NEOTVIRAT“ in the data box message, in the column K rukám, please, fill “Oddělení 33”. The forms and other information are available on <http://www.msmt.cz/vyzkum-a-vyvoj-2/podunajska-spoluprace> (under the reference of the Call).

The application must include the following documents:

- Project Proposal (with project description including the methodology, description of the project tasks of all Czech project members; description of the partner institutions and further cooperation perspective) incl. Annex 1.
- Brief academic CV for each Czech project member
- List of relevant publications of the last 2 years

FRANCE:

Only applications jointly submitted by partner researchers to the authorities responsible for the program in their respective countries will be considered eligible. Researchers from the French team must ensure this with their partners.

The application for the French team must be submitted online on the Campus France website: <https://www.campusfrance.org/fr/phc-candidater>.

MONTENEGRO:

The application for the research project should be submitted in English language and must be provided in both of the following formats:

- A **physical copy in paper format**, sent/submitted to the following address:

Ministry of Education, Science and Innovation
Division for International Cooperation and EU Funds in the Field of Science and Innovation
Vaka Đurovića bb
81000 Podgorica

- An **electronic copy** of the same application, sent by email to the contact persons listed below.

The electronic file **must** contain exactly the same application as the paper version enclosed.

The application must include the following documents:

- **Completed and signed Application Form**, which includes:
 - Project description, including methodology
 - Brief description of all partner institutions
 - Brief description of the project tasks for all project members (Montenegrin and partner)
 - Expected project results and future cooperation perspectives
- **Brief academic CV** for each Montenegrin project member.

List of relevant publications from the last 2 years for each Montenegrin project member

REPUBLIC OF SERBIA:

Electronic application in English and Serbian language: <https://nitra.gov.rs/cir/medunarodna-saradnja/multilateralni-programi-saradnje>

Signed PDF versions of project application must be send to: prijava.dunav@nitra.gov.rs

Content:

- Project description including the objectives and methodological part
- Brief academic CV for each Serbian project member
- List of relevant publications of the last 2 years on the Serbian side
- Short description of the project tasks of **ALL** project members
- Expected project results and further cooperation perspective

SLOVAK REPUBLIC:

The entire application for the research and development support project must be submitted in Slovak and English online at www.apvv.sk until call deadline. The application must include the following information:

- Brief academic information **for Slovak PI** and list of other project members
- List of relevant **Slovak PI** publications or important research results of the last 5 years
- Project description including the methodological part (3 to 5 A4 pages)
- Brief description of the partner institutions
- Short description of the project tasks of **ALL** project members
- Further cooperation perspective

REPUBLIC OF SLOVENIA:

Proposals for the public call must be submitted electronically via the online application system. The application must be completed and submitted using application form ARIS-MULTI/2026 on the DigitalForms Agency's web portal. The application must be electronically signed (a qualified digital signature is not required) by the applicant's representative or authorized person and the head of the Slovenian component of the multilateral cooperation activity.

Funding

The purpose of this call is to support the mobility of researchers among the participating countries to carry out joint research projects. In this regard, funding will be made available for visits and exchanges of scientists conducting joint research.

The sending state will cover the travel expenses as well as the accommodation costs and insurance of its own researchers.

In Austria in well-justified cases EUR 3,000.- per project may be applied for material and/or other costs. In the Slovak Republic the other expenses associated with the project implementation covered by the Agency's resources shall not exceeding 30% of the total project costs provided by the Agency in each financial year.

Funding Modalities

Funding will be available for a maximum of two years for **collaborative research projects** jointly developed and completed by researchers from a **minimum of 3 participating countries**.

Funding will be provided for activities within the scope of these guidelines only.

AUSTRIA:

Number of participating countries	Maximum funding per project
3	EUR 13,000.-
4	EUR 16,000.-
5 and more	EUR 19,000.-

Eligible Costs:

- Travel expenses: Travel costs (economy class) up to max EUR 1.200,- will be reimbursed based on submitted invoices. For travels up to seven hours bus and train shall be used.
- Accommodation expenses: EUR 120.- per working day for up to 12 days OR EUR 1,440.- per month for long-term stays between 12 days and 3 months maximum
- Project related material costs: max. EUR 3000.- per project as part of the granted maximum budget based on submitted invoices.

BULGARIA:

Maximum funding for a project: - **EUR 26,000.-** (EUR 13,000.- per year)

The funding will be allocated as follows:

EUR 26,000, of which minimum 30 % from the direct eligible cost are for mobility, and the rest funding is according to the specific rules of the BNSF for each project.

Detailed eligibility conditions are described in the GENERAL GUIDELINES AND PROCEDURES FOR EVALUATION OF PROCEDURE "CALLS FOR PROJECTS IN PROGRAMS FOR BILATERAL COOPERATION" and the Appendix 'Specific conditions' for the International call for Multilateral scientific and technological cooperation in the Danube region, available at the web site of BNSF: www.bnsf.bg

CROATIA:

Number of participating countries	Maximum funding per project
3	EUR 10,000.- (EUR 5,000.- per year)
4	EUR 12,500.- (EUR 6,250.- per year)
5 and more	EUR 15,000.- (EUR 7,500.- per year)

The funding can be calculated as follows:

- Travel expenses: Travel costs (economy class) up to max EUR 500,- will be reimbursed based on submitted invoices. For travels up to seven hours bus and train shall be used.
- Accommodation expenses shall not exceed the price of a 3-star hotel. Food expenses per person and per day in accordance with the Croatian national legislation: for Austria EUR 90.-, for Bulgaria

EUR 70.-, for the Czech Republic EUR 80.-, for France EUR 90.-, for Montenegro EUR 50.-, for Serbia EUR 50.-, for the Slovak Republic EUR 70.- and for Slovenia EUR 80.-.

CZECH REPUBLIC:

Number of participating countries	Maximum funding per project
3	250 000 CZK (125 000 CZK per year)
4	300 000 CZK (150 000 CZK per year)
5 and more	350 000 CZK (175 000 CZK per year)

The funds can be calculated as follows:

- Travel expenses (including the costs of travel health insurance): maximum 10 000 CZK/person - per trip for Czech researchers travelling to an abovementioned country.
- Accommodation expenses (including food expenses according to the rules set by the Ministry of Finance of the Czech Republic): Austria up to EUR 150.-, Bulgaria up to EUR 120.-, Croatia up to EUR 120.-, France up to EUR 170.-, Montenegro up to EUR 120.-, Serbia up to EUR 120.-, Slovakia up to EUR 120.-, Slovenia EUR 120.- per person and per day for Czech researchers travelling to abovementioned countries for up to 14 days **OR** CZK 45 000.- per month for long-term visits between 15 days and 3 months maximum.

FRANCE:

Number of participating countries	Maximum funding per project
3	EUR 10,000.- (EUR 5,000.- per year)
4	EUR 12,500.- (EUR 6,250.- per year)
5 and more	EUR 15,000.- (EUR 7,500.- per year)

The funding will be allocated as follows:

- Travel costs will be reimbursed for French researchers travelling to a partner country based on submitted invoices: maximum EUR 500.- per trip
- Accommodation and food expenses: EUR 125.- flat rate per person and per day for French researchers travelling to a partner country

MONTENEGRO:

Number of participating countries	Maximum funding per project
3	EUR 10,000.- (EUR 5,000.- per year)
4	EUR 12,500.- (EUR 6.250,- per year)
5 and more	EUR 15,000.- (EUR 7.500,- per year)

The funds can be allocated as follows:

- **Travel expenses**, reimbursed in accordance with real market prices and based on submitted invoices. Eligible travel costs include:
 - air travel between the seats of the partner institutions (economy class);
 - local transport directly related to arrival at and departure from the mobility destination (transfer from the airport to the place of accommodation and return). Taxi transfer costs may be considered eligible only with adequate justification (e.g. when public transport is not available or when transfers take place between 22:00 and 07:00);
 - travel by private car may be accepted if it proves to be more economical. In this case, travel costs shall be calculated at 25% of the fuel price per litre per kilometre travelled, up to a maximum distance of 1,000 km.
 - Rent-a-car costs are not eligible.
- **Accommodation expenses:** up to **EUR 100,-** per night, applying the principles of cost-effectiveness and justification of expenditure. For longer stays, accommodation costs may be financed for up to 15 days per month of stay, regardless of the total duration of the stay.
- **Daily allowances (per diem):** calculated in accordance with the applicable national Regulation on Reimbursement of Expenses for Employees in the Public Sector. For longer research stays, per diem allowances may be financed for up to 15 days per month of stay, regardless of the total duration of the researcher's stay abroad.
- **Optional costs of materials** necessary for the implementation of project activities: up to 20% of the total project budget, subject to prior consultation with and approval by the Ministry. Eligible costs include research and laboratory consumables (e.g. chemicals, reagents), scientific literature, publications, database licences and similar items. General-purpose equipment (e.g. computers, phones, cameras), office supplies and services not directly related to research activities are not eligible.

REPUBLIC OF SERBIA:

Number of participating countries	Maximum funding per project
3	840.000 RSD- (420.000 RSD- per year)
4	1.020.000 RSD (520.000 RSD- per year)
5 and more	1.080.000 RSD (540.000 RSD- per year)

Eligible costs within maximum funding amount per project year, for Serbian researchers travelling to an abovementioned country based on submitted invoice, include:

- Travel expenses
- Health Insurance and
- Accommodation expenses.

SLOVAK REPUBLIC:

Number of participating countries	Maximum funding per project
3	EUR 10,000.-
4	EUR 12,500.-
5	EUR 15,000.-
6 and more	EUR 17,500.-

The funds can be calculated as follows:

- Travel expenses for Slovak researchers travelling on the territories of Slovakia and the participating partner countries, which are demonstrably related directly to the project.
- Accommodation expenses: for Slovak researchers travelling on the territories of Slovakia and the participating partner countries, which are demonstrably related directly to the project.
- Subsistence costs for Slovak researchers
- Documented necessary extra costs for Slovak researchers (visa, conference fees, travel health insurance abroad, tolls/fees and parking fees demonstrably related to the business trip covered within the project solution, compulsory and recommended vaccination, etc.)

The other expenses associated with the project implementation covered by the agency's resources shall not exceeding 30% of the total project costs provided by the agency in each financial year (material, services).

More details about Slovak national rules can be found in the consolidated version of the public call and their annex.

REPUBLIC OF SLOVENIA:

Number of participating countries	Maximum funding per project
3	EUR 10,000.- (EUR 5,000.- per year)
4	EUR 12,500.- (EUR 6,250.- per year)
5 and more	EUR 15,000.- (EUR 7,500.- per year)

The Agency will (co-)fund the following eligible costs for Slovenian researchers during visits to participating countries:

- international travel costs incurred in the most economical manner, taking into account cost and time, local (public) transportation from the place of accommodation to the research organization, including transportation from the point of entry into the country to the host research organization and back. In the case of using air transport, eligible costs also include the costs of public transport (taxi only exceptionally) from the airport to the research organisation and from the research organisation to the airport,
- accommodation costs for participants in multilateral cooperation activities in the amount of up to a maximum of EUR 100 per day for short visits of up to 14 days. For visits longer than 15 days, accommodation costs amount to a maximum of EUR 1,250 per month,

- daily allowances up to the amount specified in the applicable regulation governing the reimbursement of expenses for business trips abroad.

The Agency will (co-)fund actual costs based on submitted claims, which must be accompanied by a substantive and financial report on the activities carried out under each multilateral cooperation activity. The Agency will consider claims for payments received no later than 30 days after the visit.

Evaluation criteria

Following the closing date of the call indicated below, applications will be submitted to recognized national experts in the various fields of research represented by the proposals received. These experts will evaluate each proposal based on the following criteria:

- Scientific value of the intended research project (Points 0-25)
- Feasibility of the joint research plan and adequacy of the scientific method (Points 0-15)
- Competence, expertise and complementarity of the scientists/research teams involved (Points 0-20)
- Added value expected from the multilateral research collaboration (Points 0-15)
- Potential for further or future European and international cooperation (Points 0-15)
- Participation of young research talents (5 Points); gender balanced team (5 Points) (Points 0-10)

A maximum of 100 points can be achieved.

Funding decision

Following national evaluation, a joint shortlist of projects to be funded will be constituted through consultations between the implementing agencies/ministries based on the results of the national evaluations. The project selection will be carried out by the funding agencies and ministries of the participating countries. The results of the project selection meeting will be announced presumably by **December 2026**.

Reporting and Publications

Scientific and financial reporting on the project is obligatory.

- A final scientific and financial report has to be submitted in English (for Slovakian partners only in Slovak, for Czech partners in Czech) by all project partners to their national implementation agencies/ministries no more than 30 days after the end of the project.
- The report has to mention outputs of the projects compared with the objectives and aims of the application.
- Joint publications by researchers have to mention the support from the respective funding agencies/ministries.

Additionally in Austria: A brief project progress report has to be submitted after one year via the online tool as a precondition for further funding.

Additionally in France: A scientific and financial progress report has to be submitted after one year to the Campus France website (please see below) as a precondition for further funding.

Additionally in Croatia: Scientific and financial reporting on the Croatian side takes place according to national rules.

Additionally in the Czech Republic: A brief project progress report has to be submitted after each calendar year to the Ministry of Education, Youth and Sport of the Czech Republic (MEYS) according to the guidelines published by the MEYS.

Additionally in Montenegro: A scientific and financial progress report has to be submitted after one year to the Ministry of Education, Science and Innovation, as a precondition for further funding.

Additionally in Serbia: A scientific and financial progress report has to be submitted after one year to the Ministry of Science, Technological Development and Innovation in Serbian language, as a precondition for further funding.

Additionally in the Slovak Republic: A brief project progress report has to be submitted online and per regular post after one year to the Slovak Research and Development Agency as a precondition for further funding.

Additionally in the Republic of Slovenia:

A scientific and financial progress report must be submitted after one year to the Slovenian Research and Innovation Agency.

Intellectual property

The researchers of each country must take adequate steps to ensure protection and sharing of the intellectual property that could result from the joint projects.

Closing date for applications

Applications must be submitted before **30 June 2026**. Applications received after this date will not be considered for funding.

Please note that the implementing agencies/ministries will not be held responsible for applications that were not received. Principal Investigators have to ensure that their research partners submit their applications in time.
