

The Danube Transnational Programme is a financing instrument of the European Territorial Cooperation (ETC), better known as Interreg. ETC is one of the goals of the European Union cohesion policy and provides a framework for the implementation of joint actions and policy exchanges between national, regional and local actors from different Member States.

In order to achieve a higher degree of territorial integration in the highly heterogeneous Danube region, the Danube Transnational Programme will act as a policy driver and pioneer to tackle common challenges and needs in specific policy fields where transnational cooperation is expected to deliver tangible results.

## EDU-LAB addresses fields with major societal challenges:

- Labour market policies
- Education systems and policies
- Demographic change and migration
